## **The ACORN Superglide 120 OUTDOOR STAIRLIFT**

The ACORN Superglide 120 has evolved over time to make it one of the most technologically advanced stairlifts in the world.

The outdoor stairlift has all the safety and comfort features of the indoor stairlift but is designed and manufactured specifically for outdoor use.

The ACORN Superglide Outdoor Stair Lift is an ideal solution for situations involving any staircase that is exposed to the elements, including garden steps, sun decks, porches, front stoops and garage or basement steps. The outdoor stairlift is very popular with those lucky enough to live in beach homes, as it is well protected from the ravages of salt air.

All metallic components are either made in aluminium, or are oil annealed or zinc plated before powder coating. Plastic components are heat and UV resistant, protecting the stair lift from colour fading and ambient heat damage.

**GIVE YOUR LIFE A LIFT®**

# A WEALTH OF *features* FOR YOUR BENEFIT

Even in outdoor configuration, the ACORN Superglide Stairlift has world renowned ride quality and performance, making it whisper quiet, smooth and stable and very easy to use.

The Superglide 120's smooth-start - smooth-stop action means just that! No sudden jerks or jolts.

Another feature pioneered by ACORN is the on-board diagnostic control panel which alerts you to any potential problems before they arise ( e.g. the stairlift has accidentally been switched off or is incorrectly parked).

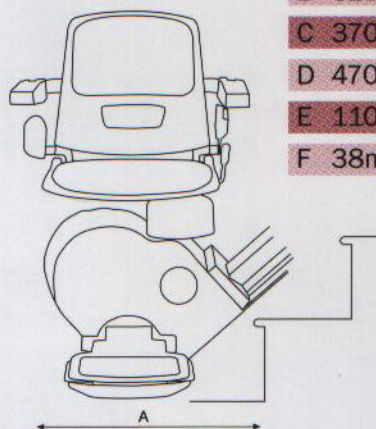

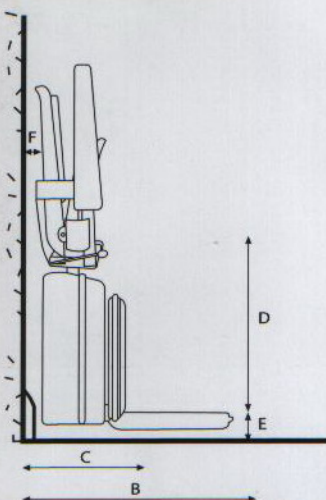

You can rest safe in the knowledge that tens of thousands of homes & gardens worldwide have already enjoyed the ACORN experience.

Included with the stairlift is a durable plastic cover which will keep off accumulations of leaves and snow.

Here are some more features of the ACORN stairlift:

- Easy to use joystick operation
- Smooth start/stop action
- Swivel seat - no need to twist your body to get on & off the lift
- Hand-held remote control 'calls' the lift to where you need it
- 5 safety cut out sensors to detect possible obstructions  
eg. objects left on the stairs
- Durable, water-proof cover for outdoor lifts

## DIMENSIONS

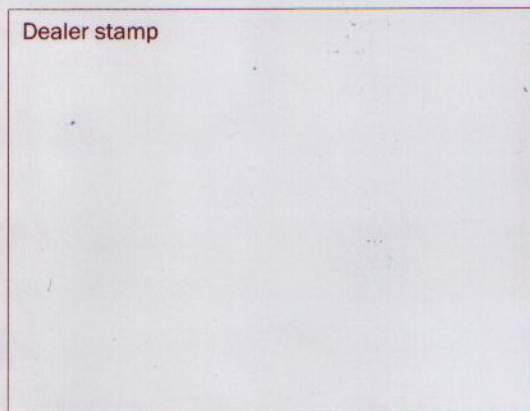

A	500mm
B	610mm
C	370mm
D	470mm
E	110mm
F	38mm

## SPECIFICATIONS

Motor Power	0.25kW
Motor Output Speed	0.1 m/s
Method of Drive	Rack & Pinion
Motor Output Torque	108 Nm
Power Supply	24V DC (battery)
Maximum Capacity	20 Stones (127 kgs)
Track	Extruded Aluminium
Mains Supply	240V, 50Hz Charger

Dealer stamp

- 1 Durable plastic cover
- 2 Remote control
- 3 Easy to use Joystick
